- Hindi- Professional Working Proficiency
- Nepali- Native / Fluent

PROFILE

Frontend Developer with hands-on experience building responsive web applications using HTML, CSS, JavaScript, React, and Tailwind CSS. Have built real-world projects including a PWA for phishing URL detection and an AI-based fashion recommendation platform. Actively seeking frontend developer or internship opportunities to grow in a product-based environment.

PROJECTS

URL Scanner PWA | React, JavaScript, Tailwind CSS

- Built a mobile-first Progressive Web App to detect phishing and malicious URLs in real time
- Integrated SSL certificate checks and IP origin detection for user safety
- Deployed on Vercel with responsive UI and optimized performance

AI Outfit Recommendation Platform | React, Node.js

- Developed frontend interfaces for personalized outfit recommendations
- Designed user-friendly UI flows for browsing and suggestions
- Collaborated AI logic with backend APIs

Personal Portfolio Website

- Designed with HTML, Tailwind CSS, and JavaScript for modern styling.
- Features smooth animations and responsive layouts.
- Highlights skills, projects, and achievements in an interactive way.

CERTIFICATE

Certified on completion of Full Stack Web Development Training
