Summary

Software Engineer with 1+ year of hands-on experience building and deploying full-stack web applications, AI-powered features, and security-focused applications. Experienced in JavaScript, TypeScript, React.js, Node.js, Express.js, REST APIs, PostgreSQL, MongoDB, Docker, AWS, and AI/LLM integration. Strong foundation in software engineering, backend development, database design, API development, authentication, and cybersecurity, with experience developing and deploying real-world applications.

Skills

Languages: JavaScript, TypeScript, SQL, Java
Frontend: React.js, Next.js, Tailwind CSS, HTML5, CSS3
Backend: Node.js, Express.js, REST APIs, API Development
Databases: PostgreSQL, MongoDB, Database Design
Cloud & DevOps: AWS, Docker, Git, GitHub
AI & Security: Artificial Intelligence, AI/LLM Integration, OpenAI API, Cybersecurity
Tools: Postman

Work Experience

XFused, Remote, India

June 2025 - May 2026

Web Dev & AI Agent Internship

- Developed and deployed a production skincare brand website using React.js and Tailwind CSS, ensuring crossdevice responsiveness
- Integrated REST APIs and contributed to AI-powered features within the application
- Built reusable UI components that improved maintainability and reduced redundant code across the project
- Managed version control and collaborated with the team using Git and GitHub workflows
- React.js, Tailwind CSS, REST APIs, Git, GitHub
- goxfused.com

Projects

- Thumblify – AI Thumbnail Generator (2026):** Built and deployed a full-stack AI-powered web application that generates YouTube thumbnails from user prompts. Integrated Google Gemini API for dynamic content generation and Cloudinary for image upload and cloud storage. Designed RESTful APIs and handled database operations using MongoDB. MongoDB, Express.js, React.js, Node.js, Gemini API, Cloudinary.
Live Demo: thumblify-umber-two.vercel.app/
Github repo: github.com/nikhil7672/Thumblify
- URL Scanner PWA (2023):** Developed a Progressive Web App to detect phishing and malicious URLs in real time. Implemented SSL certificate validation and IP origin tracking for enhanced security checks. Optimized performance and ensured full mobile responsiveness. React.js, JavaScript, Tailwind CSS.
LiveDemo: urlscanneruat.vercel.app/
Github repo: github.com/nikhil7672/Thumblify
- AI Outfit Recommendation Platform (2025):** Built and deployed a full-stack AI-powered web application that provides personalized outfit recommendations based on user preferences. Integrated Google Gemini API to generate real-time fashion and styling suggestions through an AI chat interface. Implemented Cloudinary for image handling and cloud storage. Designed RESTful APIs and managed database operations using MongoDB. MongoDB, Express.js, React.js, Node.js, Gemini API, Cloudinary.

Education

- Vidya Vikash Academy, Darjeeling, WestBengal — 2013 – 2023**
Physics, Chemistry, Mathematics, Biology (P.C.M.B.)
- Siliguri Institute of Technology, Siliguri, West Bengal — 2023 – 2027**
B.Sc in Cyber Security

Certificate

- FullStackWeb Development — Udemy:** Completed a comprehensive full-stack web development course covering frontend, backend, and database technologies. udemy.com/certificate/UC-cffb89a8-5b9e-4817-b9ee-2840d725fcd4
